DETAILED ACTION

This Office action is in answer to the pre-amendment filed October 19, 2001.

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-3, drawn to a battery charging/discharging apparatus for determining a battery remaining capacity, with time control, classified in class 320, subclass 133.

II. Claims 4-6, drawn to a battery charging/discharging apparatus for determining a battery remaining capacity, with cell voltage detection means and comparing means, classified in class 324, subclass 433.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as battery testing apparatus. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, an apparatus as claimed in invention I can be used to practice another and materially different process such as calculating the remaining available power time for the battery corresponding to previously read operational parameters.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, and different classification, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Mr. Jay Maioli at 212/278-0400 on November 25, 2002 a provisional election was made without traverse to prosecute the invention of group I, claims 1-3.

Affirmation of this election must be made by applicant in replying to this Office action. Claims 4-6 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Art Unit: 2838

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Pia Tibbits whose telephone number is 703/308-7305.

7. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center receptionist whose telephone number is (703) 308-0956. Papers related to Technology Center 2800 applications only may be submitted to Technology Center 2800 by facsimile transmission. Any transmission not to be considered an official response must be clearly marked "DRAFT". The faxing of such papers must conform to the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The Technology Center Fax Center number is (703) 308-7722 or (703) 308-7724.
